

Fun & Useful Tricks to Teach Your Dog

Here are some fun tricks to teach your dog

Paw

One paw, the other paw, both paws in a wave, hi five and give a back paw are all variations on giving a paw.

Spin

Teach your dog to go round in a circle and come back to you. Teach it the other way, then around you or around a cone.

Sit

This may not seem like a trick, but can your dog sit if you aren't facing him? By reading it? On an object?

Bark

Getting your dog to bark on cue is great fun, and you can even bark along with him, just remember to teach a quiet too!

Fetch

Also a game, teach your dog to fetch his toy, your slippers, car keys, then teach him to fetch them when you have lost them!

Touch

Getting your dog to touch your hand then any object with his nose creates focus and is great for dogs who's recall cue has gone bad.
